

Z14 Nature

Contactless Inox 16

Discover Contactless Juicing

The Z14 Nature Contactless model is the best choice for your juicing needs. This **Z14 Nature Contactless** version has a **payment system that activates the machine and begins the squeezing process instantly** while the user witnesses the entire process! That is why it is the ideal option for your offices, OCS, coworking spaces, grocerants, convenience stores or hotel lobbies.

Efficient juicing

1. EVS®

Zummo's exclusive squeezing system. Based on manual juice extraction systems it achieves maximum profitability, obtaining the purest possible juice possible with the greatest operational functionality.

2. Juice extraction kits

The different-sized juice extraction kits help to maximize the yield of the juice extracted from the fruit depending on its diameter. The kits are easily identifiable thanks to the characteristic colour of each range:

Medium (M): Orange; Large (L): Maroon.

Juice extraction kits

3. Payment devices

has a payment system that activates the machine. Payment methods: Prepayment cards/loyalty, Credit/debit cards, Mobile apps/payment gateways.

Payment devices

4. Automatic filter

Comprised of a belt that starts to move when the juice extraction starts up, sweeping away the seeds and pulp that remain in the filter: greater juice extraction performance and greater autonomy.

Automatic filter

5. Basket available in two sizes

The machine includes a 35lb capacity basket with lid which prevents access to the oranges by consumers. In those cases when less autonomy is required, there is an optional basket with 20lb fruit load capacity.

On the other parts of the brochure just change 35lb and 20lb.
